Hello Professor,

My teammates and I have been selected for your Visual Course Planner project for our COSC 499 class. I am the Client Liaison for our team.

I was wondering when would be a good time for the team to meet you and get started on the process. Unfortunately I can't come see you in your office hours today but if you have any other free time today or tomorrow, please let me know.

I can meet you by myself initially or if you would like to meet with team altogether first, then that's fine too.
Excited to work with you.

Kind regards,
Herraj

Hello Professor,

I believe we are scheduled to meet you tomorrow at the same time (1:30 - 2:00 pm).

But today Noman brought to my attention that he has to offer Friday prayers at 1:30 pm. Is there any other suitable time for you to accommodate us?

Kind regards,
Herraj

Hello Professor,

Before we show you the UI design and mockups, I want to make sure if this course planner would be a desktop only application?

If you want it to be responsive for other sizes of screens such as phones, tablets, e.t.c then please let me know and we can create UI designs accordingly.

Kind regards,
Herraj

Hi Herraj,

No, this planner should be web-based.

Thanks,
Abdallah
